## BETHEL AND VICINITY

Mr. Carl Brown and family were in Rumford, Monday.

Mrs. Margaret West spent the week end with relatives in Island Pond, Vt.

Mr. and Mrs. H. P. Austin and family were in Shelburne one day last week.

Mr. C. E. Tidswell of Upton was a business visitor in town last Tuesday.

Mr. and Mrs. W. H. Young and son, Donald, of Woodfords were guests of relatives in town recently.

Miss Hazel Douglass has returned from her vacation and has resumed her duties at Mrs. Gilbert Tuell's.

Mr. A. C. Frost has returned to his home here after having been employed at South Paris for sometime.

Mr. Eliphaz Blake of Island Pond, Vt., was called to Bethel last week by the death of his sister, Miss Lillian Blake.

Mr. and Mrs. Isaac Blake of Hyde Park, Mass., were in town the last of the week to attend the funeral of his sister, Miss Lillian Blake.

Mr. and Mrs. F. A. Brown, who have been visiting in town, left Tuesday for their home in Grand Rapids, Mich., stopping off at Washington, D. C., to visit relatives.

Mrs. Hollis Coolidge and children of Gorham, N. H., who have been guests of her sister, Mrs. True Eames, and family, have returned to their home. Master Garard Eames accompanied them and spent a few days.

Mr. Charles L. Pollard returned last Saturday from Dodge Pond, Rangley, where he spent the summer in a boys' camp. He will leave on Friday for Springfield, Mass., and will spend the winter there in editorial work for the G. and C. Merriam Company. Mr. Pollard has been a resident of Bethel for the past six years.

Mrs. Winnie Hall Bartlett invited the Ladies' Club to meet at her pleasant home at Middle Intervale. Twenty-eight accepted the invitation and many others regretted remembering the former meetings there. Twenty-eight partook of a delicious picnic dinner in the spacious dining room and five of the "younger set" enjoyed their dinner upon the vineyard piazza. If reports be true, the bill of fare was enlarged by the hostess and a real feast was enjoyed. After dinner the President of the Club opened the meeting and after business had received attention the remainder of the afternoon was spent enjoying a program and sociability and all joined in singing several familiar songs and hymns. Not only did the members give a hearty vote of thanks to the hostess who always is an ideal entertainer, but all expressed a wish that they might all meet again.

## LILLIAN APPHIA BLAKE

Lillian Apphia Blake passed from this life Sept. 7 at 9 A. M. Seeming as well as usual when she came to breakfast but after eating a part of her breakfast decided she did not care for any more and in a few minutes passed away.

She was the youngest child of David and Olive Adams Blake of Gilead. There are four brothers left to mourn for her loss, D. Newton Blake of Bethel, Isaac Blake of Jamaica Plain, Mass., E. A. Blake of Island Pond, Vt., and Judson Blake of Gilead.

Miss Blake had been in failing health for about two years but attended to her household duties until last January when she had an ill attack and was taken to Mrs. Abbott's Hospital where she remained until April. After returning to her home she was unable to do any work, Miss Vera Holt taking care of her for the most of the time since then.

The funeral was held Sunday at the M. E. church of which she was a member. Rev. Mr. Oliver spoke words of comfort to the bereaved brothers and friends.

The many beautiful flowers were silent tokens of the esteem in which she was held.

## CARD OF THANKS

Miss Zaidie Haselton wishes to express her thanks and appreciation to the Mothers' Club, and her many friends, who so kindly and generously remembered her in this time of illness and discouragement.

Zaidie Haselton,  
Ida M. Haselton.

## ELECTION

Election passed off very quietly in Bethel. Both parties were working hard all day to get in all the voters possible. About the usual number voted with a good sprinkling of women mixed in. We give you at the bottom of this page the tabulated vote of Oxford County. It shows in comparison with the vote of two years ago that quite a number of the smaller towns that were Republican two years ago shifted over to the Democratic side this year.

## BASEBALL

BETHEL 5, WARD EIGHT 4  
The Bethel town team easily defeated the Ward Eight team at West Bethel fair last Saturday afternoon. A feature of the game was a fine catch by Hanscom. The poor field made fast playing an impossibility, it being responsible for most of the errors. The lineup:

Mr. and Mrs. Isaac Blake.

## AN INTERESTING CASE

Residents of Oxford County have heard a great deal of late about rum selling and booze running, especially in the northern part of the county. Deputy Sheriff Cedric Judkins of Upton has been very active in apprehending booze runners, and has had many adventures in this work. He, in connection with Federal Agent R. H. Butler, pulled one off a few days ago.

Rum selling and booze running had become so active in Rumford and vicinity that about twenty federal officers put in an appearance in that burg recently, and one of them went to the assistance of Mr. Judkins of Upton to apprehend one or more noted runners who were expected to land a cargo in Rumford. The scene of the capture was laid on Upton Hill in the early morning.

Messrs. Judkins and Butler held up two automobiles. The first one was evidently a pilot and contained nothing contraband, but the next one was a veritable traveling rum shop. It was driven by Albert Paradis, and he had with him Mark Steinfield. Both men were from Rumford and both were arrested. The cargo included sixteen cases of whiskey and gin, two cases of wine and one of beer.

While the officers were taking care of the stock, Steinfield succeeded in making an escape, being taken to Rumford, it is thought, in the pilot car. Butler started for Portland with Paradis and while telephoning in Rumford, Paradis also succeeded in making an escape.

Sheriff Harry D. Cole was notified of the state of affairs and he procured two warrants from the court and set Deputy Sheriff Harry O. Stinson of Norway on the chase. Mr. Stinson located Paradis in Rumford and brought him to South Paris. A little later Deputy Sheriff Ivan L. Stowe of Rumford found Steinfield in Rumford and he was brought to South Paris.

They were taken before Judge Wm. J. Jones of the Norway Municipal Court, where both were found guilty of illegal transportation, fined \$200 each with sixty days in jail. Each pleaded not guilty and furnished bonds for appearance at the October term of Superior Judicial Court at South Paris.

At this point the federal officers stepped in and Paradis was taken to Portland by Deputy United States Marshal Samuel Harriman to answer to a search and seizure charge, his premises in Rumford having been searched and a quantity of liquor found, it is alleged. Oxford Democrat.

Mr. W. S. Wight has been asked to give another class in vocal instruction this fall, as his class was so successful last year many are hoping for another year for both old and young and so much needed for the young people to learn to read music by note and to build up choir singing in all the churches. Further notice will be given.

## AUTO COLLISION AT TRAP CORNER

Luther Irish of Buckfield, driving a 5-passenger Studebaker car, and a truck owned by H. D. McAllister and driven by his son, Chester McAllister, collided at Trap Corner, Monday, badly demolishing the front of the Irish car. The wind shield was broken, the radiator crushed and one mud guard bent and turned over the wheel. The McAllister truck was towing another car. Raymond Haines was riding on the truck but received only slight injuries. In the Irish touring car was Mr. Irish's father, H. A. Irish, and his daughter, Miss Elizabeth Irish, and the Misses Dorothy and Gail Clement and their brother, the children of H. G. Clement of Redlands, Calif. No one was injured.

## SKILLINGS—YORK

Sunday, Sept. 3, there was a quiet wedding at the home of Mr. and Mrs. Hubert E. York of Vernon street, when their daughter, Stella Evelyn, and William Albert Skillings were united in marriage by the Rev. C. B. Oliver, the single ring service being used. They went at once to their home at Chapman Brook Farm. Their many friends wish them a happy, prosperous life together.

## BETHEL GRANGE

Bethel Grange held its regular session on the evening of Sept. 7. The third and fourth degrees were conferred on one candidate. The following program was given:  
Important facts of Maine,  
Reading, Leptene Morse  
State of Maine, Miss Willis  
Reading, Eva Hastings  
Remarks, Marion Frost  
Lecturer's report of N. E. Conference  
Closed in form. Forty-five members and 3 visitors were present. The next meeting will be held Sept. 21.

Mr. and Mrs. H. N. Upton and all the members of their household accompanied their sister, Miss Elizabeth Chapman to LeGrand last week, where she is to begin her second year as principal of the High School which was opened for the first time last year.

## PLEASANT VALLEY GRANGE FAIR, WEST BETHEL

A very successful fair was held Saturday, Sept. 9, under the direction of the Grange.

The usual number of street vendors were present and all seemed to receive their share of patronage from a good natured crowd.

The Grange refreshment booth, near the entrance of the hall, was a busy place and did a thriving business from morning 'till mid-night.

The "tag-of-war" and other stunts, horse pulling, etc., and a well played game of base ball between the Bethel team and the Ward Eight team of Norway kept the people out of doors interested.

The interior of both dining room and dance hall were made gay with crepe paper decorations which gave them a festive appearance much appreciated by the visitors.

A bountiful dinner was served to nearly three hundred people, and a large number partook of the 6 o'clock supper.

A good crowd attended the dance in the evening.

The exhibit hall looked very nice, the overhead trimmed with evergreen boughs and many colored streamers of crepe paper and the tables and shelves were covered with white paper, all of which made a fine setting for the many and varied articles which were on exhibition. Many ancient things in a perfect state of preservation were there. Dishes and fine linen and ornaments of a hundred years ago.

A most brilliant scarlet shawl that was brought from Spain so many years ago that no one can tell its age, its woolen warp and wool unbroken, its artistic stenciling and delicate embroidery undimmed, "hob nobbed" with the punter hued sweaters of today.

Beautiful embroidery in snowy white touched elbows with that holding all the colors of the rainbow.

Quilt work that made one dizzy to even try to follow its loops, and tating of cobweb like texture. Here we saw intricate bead work, an airship and a ship to sail on water, perfect in every detail.

Patchwork quilts, knitted mittens, a knitted bed spread, embroidered worsted quilts, etc.

I wish I could tell of all the things but time and space will not let me. Many fine vegetables were shown from different gardens, but the "Perry Man," Ira Hickford, had the largest lot.

The display of canned fruits, vegetables and jellies was very nice, and certainly looked good enough to eat. A number of young girls, members of a Canning Club, had an extra fine show in this department.

The exhibit which attracted the most attention was made by Mr. and Mrs. Edwin Parlin, and consisted of many Chinese articles brought from China. Mr. and Mrs. Parlin having recently returned to this country from a stay of five years in that land. Among the articles noticed were woman's shoes scarcely 4 inches long, once worn by a woman fifty years old, whose feet had been bound. Tea cup, soup spoon, chop sticks and bowl, infant's costume, infant's bib and bonnet, writing material, child's suit and cap, the skin of an animal supposed to be a cross between a tiger and a leopard which was shot in the forests of Low Chlong, market basket, black and red umbrella, lady's handkerchief, tea cloth, brass finger bowl delicately carved, mandarin coat made into a bag, a string of Chinese coins weighing 7 1/2 pounds and worth about fifty cents of our money.

There were so many beautiful things, all showing the wonderful skill and patience of a people who know nothing of modern machinery. Silver trinkets and ornaments carved in the most intricate designs, gold and silver embroidery, lacquer work over the most exquisite patterns of flowers, etc., done in gold on lunch baskets, tea caddies, etc. The blending of delicate colors in the difficult needle work on the velvet and satin bonnets shown were pictures in themselves. A rain coat, wooden sandals, idols, and many more things made up a collection seldom seen in America.

Fair committees: E. C. Smith, chairman; L. A. Sumner, Charles McAnis, Ira Hickford.  
Stock: Fred Mudd.  
Hall: Addie Mason, Harry Kessell, Bertha Sumner.  
Dinner: Belle Bennett, Bertha Sumner, Gertrude McKenzie, Grace Farwell, Mamie Bennett, Beattie Kessell.  
Supper: Gertrude McKenzie.  
Horse Pulling: T. L. Lorton.

## PINKY PIG'S IDEA

"I have an idea," granted Pinky Pig.

"Of what use is that?" asked Grandfather Porky. "No one can eat it."

"No one can," granted Miss Ham.

"No one," said Mrs. Finley Pig.

"No one," said Master Pink Pig.

"Not even a pig could, and a pig isn't fussy," said Sammy Sausage.

"Sammy is right," said Brother Bacon.

"But maybe he has an idea of how to find food or something like that," suggested Miss Ham. "We had better let him speak."

"Let him speak," the others said, "as there might be something to what Miss Ham says."

"You all talk," said Pinky Pig, "as though you could stop me from speaking if you wanted to. You could all grunt and squeal so loudly that I couldn't be heard but at the same time that might stop me from speaking."

"I might become discouraged, but I don't believe I'd be as discouraged as all that for I've often had nice talks with myself when all of you have been grunting and squealing."

"What in the world have you said to yourself?" they asked him.

"Oh, I've said, 'Well, Pinky, if you're smart and watch closely out of your right eye you may get more food than anyone else.'"

"And I've said, 'Now Pinky, grab from your brothers and sisters and your parents and your grandparents. Do not disgrace the family name of pig.'"

"And I've said to myself, 'Pinky, young pig never forget that you are a pig! Be a regular pig. Don't be unselfish or generous, don't be anything foolish like that. Be a regular pig!'"

"And I've said to myself, 'then now, if you're quick, you can grab that away from your brother. Hurry now, Pinky.'"

"Such have been the things I've said to myself."

"Well, well, that's different," Grandfather Porky said. "We had an idea, I think, at least I know I had, that you had said quite different things to yourself."

"Yes, we all thought so," said the other pigs.

"What did you think I had said to myself?" asked Pinky.

"Well, I was afraid," said Grandfather Porky, "that perhaps you had

## An Awful Thing

feeling poetry to yourself or something like that, and gracious, goodness, that would be an awful thing for a pig to do."

"An awful thing for a pig to do," the others squealed. "Yes, we thought when he said he had talked to himself he might have recited poetry," they all squealed and grunted.

"I should say not, I should say not," said Pinky. "For I don't know any poetry except the cradle song my mother used to sing to me. I believe all pigs know it. We don't hear it when we're in the cradle, as pigs are never in cradles, but we hear it in the pig sty by our mother's side."

"It goes like this:

"Go to sleep, my little pink pig,  
When you grow up to the end you can  
Squeal."

Always be greedy, so greedy, my pig,  
For to be kindy we don't care a fig.  
Always grab all you can, little pig,  
Then when you grow up to be very big  
You'll be just a nice, fat, greedy young  
pig."

And that will make another pig's heart  
dance a jig?"

"But I was going to tell you all my idea," he said, "and we got talking about other things."

"Oh yes," they squealed.

"My idea was that when any of you had anything left over you didn't want, you would give it to me because I have such a little room—Pinky Pig."

And all the pigs squealed that that was the poorest idea they had heard in many a day!

## RUMFORD

Mr. and Mrs. Merle Richardson are receiving congratulations upon the birth of a son at McCarty's Hospital. The boy has been named Merle, Jr.

Mrs. R. A. Hutchins and children returned Saturday from Long Island, Portland Harbor, where they have been spending the summer.

The schools of Rumford opened on Monday for the beginning of the fall term. It was voted by the school board at its last meeting to lengthen the school day twenty-five minutes, ten in the morning and fifteen in the afternoon, making the day five and a half hours. The idea is to arrange it so that the child will do more of its studying in school and not be obliged to do as much work outside of school hours.

Quite a delegation of Rumford people attended Shrine Day at the State Fair. Among those present were Mr. and Mrs. Harry Coke, Mr. and Mrs. Robert Harris, Mr. and Mrs. Alfred Sparks, Mr. and Mrs. C. E. Britton, E. J. Latham, Virgil Linnell and Harry Carroll.

The Osgood Eaton Relief Corps will hold a school of instruction in Rumford in K. of P. Hall, Oct. 10.

Mr. and Mrs. Lester Cowan were guests in town for a few days of Mr. and Mrs. Alfred Sparks of Franklin street. Mr. and Mrs. Cowan were accompanied by their young son. They will visit friends in Norway a short time before returning to their home in Portland.

Mr. and Mrs. William Lee returned Saturday from Portland, where Mrs. Lee and Miss Elizabeth have been spending some time this summer. Mr. Lee has just recently visited his son, Cecil, in New Jersey.

Monday saw a large vote out in Rumford from early morning until the closing of the polls.

Urban Chase, assistant manual training teacher has taken a room at the home of Mr. and Mrs. A. S. Sparks.

Miss Barilla and Miss Janet McKenzie left Wednesday for Boston where they will take a course in Business Administration. Miss Sarah McKenzie will take Miss Barilla's place in the C. H. McKenzie store.

Evangeline, the little daughter of Mr. and Mrs. George Marshall, and Miss Belle Gallant left Saturday for Salem, where they will enter the Lorraine Villa convent.

Mr. and Mrs. Harry Marx attended the 50th anniversary of the Knights of Pythias Lodge at Portland, while they were at Falmouth Foreside.

Dana C. York spent a few days last week at his old home in North Windham.

Tuesday afternoon at the vestry of the Methodist church an aluminum demonstration was held. The ladies of the parish sold tickets for this and each lady attending received an aluminum sauce pan as a gift.

Mrs. Augusta B. Paine and mother, Mrs. Briarly, arrived in town Tuesday of last week after a summer's vacation spent in Patten, Maine.

Miss Edna Reynolds of Portland is spending a few weeks with her mother, Mrs. Ruby Reynolds, of Lincoln avenue. Miss Reynolds is a nurse in the Children's Hospital in Portland.

Mr. and Mrs. Frederick Pullman left Friday for a brief trip to Boston. Mrs. Pullman will visit friends in Lynn while Mr. Pullman fulfills a business engagement in Boston.

On Wednesday of last week occurred the marriage of Miss Lurline Kidder, only daughter of E. O. Kidder and wife of Smith's Crossing, to Harold V. Mortenson of Rumford. The ceremony took place at the Baptist parsonage in Mexico, Rev. Mr. Harry Erb performing the double ring service. The young couple were attended by a sister and husband of the bridegroom, Mr. and Mrs. Victor Hewitt.

The first meeting of the Ladies' Aid of the Methodist church was held in the church parlor Tuesday afternoon.

People of Anatolia Believed to Be Survivors of Those Who Founded Ancient Galatia.

Below the surface of the general Turkish-Moslem unity of Anatolia of today singular strains appear, both religious and racial. In the central ranges of the Pontic range, for instance, lie the villages of a people called in Turkish, "Kizilbash"—"Redheads." They differ markedly in physical type from the other Anatolian peasants about them, being either light brunette or blond. The beards of the men are light brown and curly, unlike those of the Turks. They are in all probability the survivors of old Gallic tribes who hewed their way into central Anatolia in the third century before Christ, founded the Galatian kingdom, and later accepted Christianity. They now profess to be Mohammedans. But they do things that no orthodox Turk will do, writes W. L. Westerman in Asia Magazine. Their women, for example, go unveiled; and they eat with the men. Once a year a priest appears among them and in secret they partake of the communion. These Kizilbash represent a race of incomplete conversion to Islam, as well as incomplete racial mixture. Throughout the Near East many such strange survivals are to be found, broken bits of ancient peoples of primitive Christian beliefs, even of pre-Christian pagan religious rites—strange relics of the past.

Does it cost too much to paint your barn?

There are two costs in painting your barn. The first cost is for the paint; the second is for the labor of putting it on.

The second cost is the big cost. And it will be too big unless you get the right kind of paint.

Low Brothers Standard Barn Paint costs less because it spreads further and you use less. It spreads more easily, so it is easier to apply. Therefore the cost of painting is proportionately less.

Come in and ask us for proof.

#### THE FUTURE OF THE RAILROAD LAWS

In discussing the Esch-Cummings law Colonel Brookhart, Republican candidate for Senator in Iowa, declares: "The evils of this law will live long after it is expunged." To which Senator Cummins, one of the authors of the law replies: "If Colonel Brookhart's power were commensurate with his apparent desires, this government would last a fortnight." Iowa is reported to have become a veritable battleground of debate as to whether the transportation act should survive or not. And what is true of the situation in Iowa is likewise true in all parts of the country where the old battle between labor and capital is being fought with the railroad question as the concrete, or "horrible example," depicting the advantages of entrenched privilege and the disadvantages of the railroads; while the accused capitalists retort that they are being held up by shot-gun methods operating in the name of organized labor. There is a lot of heat in the situation, and with a railroad strike and a political campaign on hand, it is hardly to be expected that sober, sane thought will have an even chance in the discussion.

A wise writer once observed that facts were for poor men, and by revolving these poor but stubborn facts one finds that not many years ago Senator Cummins was regarded as an extreme radical upon the railroad question. His ideas with reference to Government regulation of railroads were assailed by the conservative press as "destructive." The principal points which he secured in the enactment of the Esch-Cummings law were demanded in Iowa, Wisconsin, Nebraska, and the other "progressive states." But progressive politics jump so fast that the now sure that the author of the railroad law and the law itself is reactionary. Therefore he would "expunge" it. It makes no difference that the transportation act is a very big and a very long and a very broad law, dealing with nearly every phase of one of the Nation's greatest problems. Its repeal would not be unlike "expunging" the laws with reference to agriculture, finance, or foreign commerce, or repudiating the Constitution because it does not answer the bill with regard to "state's rights," "child labor," or some other economic desire.

The Esch-Cummings law can never be repealed until a new code of railroad regulatory laws are set up to replace this piece of legislation. It took a great many years to create the transportation act, as one may well understand by looking at the number of pages it fills in a law book. No Congress—no matter how elected, would consider "expunging" the law. But very naturally the law will be amended and changed in many important particulars by the next Congress. And many other changes will be made year after year to meet the conditions that exist in the country. Facts that are made for poor men point out very clearly that this is bound to be so.

#### RADIO 'ROUND THE WORLD

This little giant called radio is blazing its trail 'round the world. Jazz band concerts, market reports and an occasional opera concert broadcasted through a few hundred miles of that mysterious thing called the ether of space, lead interest and spice to the affairs of life. But that there is something more that joy in the radio voices is being demonstrated in most emphatic ways. The Radio Corporation of America is the leader in the development of radio communication. It carries a heavy traffic in communication with England, Germany, France, and other parts of Europe. The company is putting in great broadcasting stations in the United States to supplement those it already has in operation, and in addition three new stations are to be built in Central America, to be operated in cooperation with the United Fruit Company's interests. The new plants each have a broadcasting capacity of more than two thousand miles. All America will be connected by means of the operation of these stations. The Swedish Government has recently awarded a contract for the building of a great broadcasting station in that country to the Radio Corporation, and this will insure direct communication between Sweden and America. In fact the whole world is being rapidly linked together in radio or wireless communication. The Radio Corporation is the great vitalizing force in the industry, and while millions of our population have been playing with and studying the new discovery, this firm, linked with the General Electric and other great interests, has been busy with the problems of development on a world-wide scale, in order that the commercial and scientific advantages of wireless may be realized by the public in as broad a manner as the telephone, the telegraph and the ocean cables.

#### HARDING AND WILSON

The personal affairs of Washington's leading citizens, Warren G. Harding and Woodrow Wilson are always of acute interest in the National Capital. They stand in about the same relation to the

## If You Want Good Health

Breathe Right—Eat Right—Exercise—and you will seldom need medicine. Fresh air day and night helps to keep your system in condition to resist colds and sickness.

But if you do eat too heartily of the wrong food, or get too little exercise, you may safely use "L.F." Atwood's Medicine. It is a food for more than sixty years. Used for more than sixty years by thousands of people right here in Maine. Keep a bottle handy for emergencies—50 cents—1 cent a dose, at your dealer's.

"L.F." MEDICINE CO., Portland, Me.

people in that city as do Mayors and ex-Mayors in the ordinary community. The frivolities of the Hardings on the Mayflower and in their social connections are always morsels for the gossips. The Woodrow Wilsons appear almost daily in the indulgence of automobile trips and on Saturday nights at Keith's vaudeville shows. They are always enthusiastically received by the populace, and there seems to be a steady determination to let the ex-President understand that "we love you still." Washington in non-partisan enough so that the same people give their applause to both Harding and Wilson. Mr. Harding's appearance would be described by those who see him constantly as "older" than when he went into office. It is known among politicians that he takes his duties very seriously, and naturally the unusually heavy responsibilities that he has faced have made him appear careworn at times. If it were not for the little holidays and relaxations that come into his life Mr. Harding would not be apt to "wear well," physically. But the "friendly conspiracy" of the White House physician and the family of a President has saved many a chief executive of the American nation from a premature breakdown. This "friendly conspiracy" got along very well with Mr. Wilson until he went to Europe, where he renounced his accustomed golf games, only to collapse beneath the weight of overwork and public worries. Perhaps some people are old enough to remember that as a professor at Princeton Woodrow Wilson was a good deal of a bicycle enthusiast, while Warren G. Harding used to pitch quoits and indulge in many of the very ordinary recreations. Already the political conspirators are preparing to push Mr. Harding into the background of political leadership. "Did you hear about the triumphs of LaFollette and Beveridge, and Pinchot," they ask—just as though that indicates a collapse of good old Republicanism. And in the Democratic camp the same human gloom-makers specialize on how Reed in Missouri "wallowed" Wilson. Of course, they admit, Vardaman couldn't help losing in Missouri, "because John Sharp Williams did not want him for his successor."

There are so many strings to the political bows that it is impossible to guess which way the next arrows will fly. But one thing is certain and that is that the real leaders of the two old parties are the President and the ex-President. Even so, it would not be at all strange if these two illustrious gentlemen felt a good deal of concern about the drift in national affairs and wonder when and how the country is to get "back to political normalcy."

There are as many strange bedfellows as usual in political beds. It seems that a lot of the old progressive Republicans are determined to beat Senator Lodge if possible. Former Senator Moses Clapp of Minnesota is leading a group of opponents of the peerless man from the Bay State and he is campaigning in Massachusetts against his old colleague in the Senate.

#### MIDDLE INTERVALE ROAD

Mrs. Mary J. Capen spent a few days at the village last week with her daughter, Minnie, and is now at the old homestead.

Mr. and Mrs. Robert Sanborn are receiving congratulations on the birth of a pound son, born Sunday, Sept. 10.

Mr. and Mrs. Leslie Blake and little son returned to their home in Boston last week.

Mr. and Mrs. Edgar Goodridge were in the father's, Monday.

Mr. and Mrs. J. E. Cowdige called on Mr. and Mrs. Kennerman, Sunday.

Miss Ethel Capen spent a couple of days last week with her aunt at Middle Intervale.

"Mrs. Grundy" was the name of a lady in Thomas Morton's "Speed the Plow," a play written in 1793. Like Dickens' Mrs. Harris she was not a real character in the play, but everybody in the play who tried to do anything that was not proper was told that "Mrs. Grundy" wouldn't like it. The expression is generally used to mean the power of other people's ideas of what is right and proper to control our own actions.

### THE IMPROVED ASPIRIN TABLET

**Jingle's Laxo Aspirin**  
Aspirin is prescribed by physicians more often than any other drug. It is safest and quickest relief from congested pain and fever. **TINGLE'S LAXO-ASPIRIN** is the new scientific aspirin tablet. It is gently laxative, cleansing the system of poisons which are often the cause of pain. Does not cause heartburn or indigestion as ordinary aspirin does. Breaks up a cold—removes the cold and relieves the pain of rheumatism, neuritis and lumbago. Brings almost instant relief in headache and neuralgia. ### THE CHEERFUL CHERUB

Now that I'm old I find the world is not a bit as I surmised. It's hard to see what things are for—If this is life I'm just surprised.

#### A LARGE ORDER

"Do you always speak the whole truth and nothing but the truth?" "I don't claim to be as strong as all that," replied Senator Sorghum. "A man who undertakes to ascertain truth in its entirety and then to sift out all the elements of non-veracity is likely to find that he has used up the better part of a lifetime in contemplative silence."

Why Little Things Are Important. The selection of "little things" for the home is just like choosing the friends one wants to keep a lifetime. The little things in the home are chosen safely only when they fit our ideas of individuality, restraint, comfort and economy. It is not necessary for one's home to be cluttered with useless things, but a visit to one of our first-class furniture stores will reveal many interesting objects of beauty and art which are really needed in the modern-furnished home. There are many cleverly designed lamps, with their subdued colorings, that add beauty and refinement to the home; a gateleg table that would save unnecessary steps for mother and the writing desk that suggests many friends whose letters make pleasant links of affection, telephone stands, book ends, console tables, mirrors and hundreds of other things, little, but how they do add to the attractiveness of any home.

## GIVES LIFE SAVING OTHERS

W. C. Gentry Escaped Injury in World War, Dies Rescuing Texas Flood Victims.

After serving with the colors in the infantry, field artillery, motor transport corps and the navy, W. C. Gentry returned from the World War to his home at Fort Worth, Tex., without having been injured. During the flood at Fort Worth in April, 1922, the American Legion called upon its members to do rescue work. Young Gentry was one of the first to present himself at the Legion office.

During the first few hours he was in the flood district Gentry rescued six persons. While swimming toward the levee, after carrying a woman to safety, he became entangled in a barbed wire fence which had come to the surface of the water. He called to a companion for help, but the companion was too nearly exhausted to save him. The surging waters from which he had saved others soon engulfed him.

Major E. B. Cockrell of Fort Worth urged his fellow citizens to erect a fitting memorial to the young man who had unselfishly given his life for his fellow men.

## WHEN ONLY FOUR HOURS OLD

Miss Rosalie Carol Larson of Worthington, Minn., Probably Youngest Auxiliary Member.

Fortunately, there are no age requirements for membership in the American Legion Auxiliary. A number of grandmothers were among the charter members of the organization in Minnesota. On the other hand, there are several young women who may say that they have been engaged to the Auxiliary all their lives. Little Rosalie Carol Larson of Worthington, Minn., was admitted to membership when she was only four hours old. No one could argue for the honor. It was just conferred upon her.

Rosalie's father, Warner Larson, served with the American Legion division and her mother received her diploma as a graduate nurse after volunteering for service with the American Red Cross.

## THE FLOWERS OF THE LEGION

American Daisy and French Poppy Official Flowers of Both Branches of the Organization.

There has been some confusion in the minds of Americans in general as to the status of the daisy and the poppy in connection with the American Legion and the American Legion Auxiliary.

The daisy is the Legion's official flower. The poppy is the Auxiliary's official flower. The misunderstanding arose in the first place because in its early days the Legion did not get the poppy of France on its flower list at its Kansas City convention the American Legion adopted the daisy as its official flower on the grounds that the daisy is an American flower and the poppy of Flanders is available for use only in artificial form.

The Legion Auxiliary has taken all advantage of the very fact that the poppy is not available as a real flower to buy artificial flowers made by disabled soldiers in hospitals. The Massachusetts Legion and Auxiliary netted something over \$10,000 from the sale of artificial poppies last winter. This money was used to better the conditions of sick and needy veterans of the World War.

The Legion is making every effort to interest the children of America in the cultivation of flowers by appealing to their patriotism and to their natural affection for a flower as the American Legion's American daisy.

## Carrying On With the American Legion

Former service men in Massachusetts received notice to take from the government to one month through the aid of the Massachusetts American Legion.

A great new battle will soon be fought between the forces of the American Legion and the forces of the American Legion Auxiliary.

## Massachusetts To Display Fifteen Group Exhibits

INTERIOR DISPLAY IN MASSACHUSETTS STATE BUILDING

Fifteen separate group exhibits will comprise the Massachusetts state offerings at the Eastern States Exposition in Springfield, Mass., from Sept. 17 to 23, according to A. W. Lombard of the State Department of Agriculture. The state display will be under the direction of Leslie H. Smith of Hadley, director of the Division of Reclamation, Soil Survey and Fair, who will be assisted by Mr. Lombard.

The different groups will include a dahlia exhibit, food and fur bearing rabbits, useful native American birds, soil survey and reclamation projects, home grown fruit, modern dairy and milk plant, farm products from Berkshire County, native wild flowers and ferns plant pests and their control, market display, onion grading and packing, state fish, poultry and an old fashioned garden.

The most prominent exhibits will be those of the division of markets, the model dairy and modern milk plant and the decorations about the pool, these last forming the centerpiece of the state display. The division of markets will occupy the entire west wing of the Massachusetts state building. A map of the state will be shown, and there will be a display of native wild flowers and ferns.

Work on erecting the Massachusetts exhibits has been begun already. It will take five weeks to erect the booths and arrange the interior displays.

Home Department Scope Increased New Divisions and Buildings Added For 1922 Exposition

Home Department exhibits at the Eastern States Exposition this year which takes place from Sept. 17 to 23 inclusive in Springfield, Mass., will be carried out on a larger and more comprehensive scale than heretofore. Several important additions to the group of model cottages have been made since last year and many new features have been incorporated in the home department programs by Mrs. C. M. F. Heron of Boston who will act as superintendent of the division.

The women's exchange, established in 1921, has been enlarged to include exhibits from the 10 North Atlantic states and not merely New England, and an effort will be made not only to have the exchange in operation during the Exposition but to establish it as a permanent feature. Another important department will be devoted to child welfare. This will be under the direction of the Massachusetts Department of Public Health and the exhibit will include a complete wardrobe for the baby, a display of the correct toilet articles, use of the portable bath for bathing small children, etc. In the nutrition exhibit there will be shown model meals for children ranging in age from two to six years, and this will also include food menus of the right type for an entire family of average numbers with particular attention to the proper balancing of the family ration so far as it concerns the presence of vitamins bearing products.

## FRUIT EXHIBITS

Exposition To Have Selected Orchard and Garden Products

Fruits and vegetables from every part of the 10 North Atlantic states, the best that fields, gardens and orchards afford will be displayed at the Eastern States Exposition in Springfield, Mass., from Sept. 17 to 23, in a group exhibit in the Coliseum building arranged under the direction of the Exposition management and supervised by A. B. Jones of West Acton, Mass., assisted by F. C. Mattison of Rocky Hill, Conn.

The fruit and vegetable display will be one of the most comprehensive ever attempted at the Exposition and by means of group exhibits drawn from a wide territory proper methods of grading, packing and marketing will be shown.

Great care is being exercised by Mr. Jones and his associates in selecting standard commercial varieties of fruits and vegetables of the proper grade. These will be of exceptional quality and the entire exhibit is designed to present to producer and consumer the quality products that can be grown with the greatest benefit to consumer and an equally satisfactory margin of profit to the producer.

DAIRY DISPLAY New England Council Arranges Unique Exhibit

One of the newer and more unique exhibits to be shown at the Eastern States Exposition in Springfield, Mass., from Sept. 17 to 23 inclusive, will be the display being arranged by the New England Dairy and Food Council under the supervision of Prof. W. P. H. Lockwood, managing director of the Council.

## The Roofing Products For Your Buildings

The selection of a good material is an essential part of a building's construction or repair. A roofing is supposed to protect the interior of a building and the material contained in it.

Cheap roofings cannot withstand the ravages of the weather and will leak. The leak may damage the contents of your building and the cost to you may be many times the value of even the highest-priced roofing.

As a responsible distributor, with a reputation to maintain, we recommend

## RU-BER-OLD ROOFING AND SHINGLES

We know from knowledge and experience with roofing materials that Ruberoid Products are made of the highest grade materials. They may cost a trifle more, but they last—hundreds of roofs bearing testimony to this fact. They are the cheapest in the long run.

Ruberoid Roofing Products will not be affected by cold weather or hot climates. Sparks "fall dead" on Ruberoid because of its fire-resisting qualities. We can tell you some interesting things about roofing. Come in and talk over your problem.

# DALTONS AND THEIR LEGACY

The Story of What Happened When the City Called and the Country Called Back Again

By ELEANOR PORTER

Author of "Pollyanna," "Just David," Etc.

Copyright by Eleanor H. Porter.

THE legacy amounted to ten thousand dollars, and coming as it did from a little known, scarcely remembered relative it seemed even more unreal than the man who had bequeathed it.

"Now we can leave the farm," exulted Mrs. Dalton.

"Why, Sarah, do you think that is quite wise?" asked her husband.

"Wise? Of course it is!" she returned decidedly. "Why, Caleb, don't you know? We've always wanted to go to the city; and Cousin John said he'd give you a place in his store any time, so you'll earn something to start with right away. We never dared to before, you know, for we didn't sure how you'd do; but now we've got all this money we shan't have to worry a mile. Oh, isn't it just splendid, Caleb?"

"Yes, but—" he hesitated.

"But there isn't any 'but,' Caleb," laughed Sarah, and turned to a boy of twelve and a girl of fourteen who entered the room at that moment.

"We've got it all settled, children. We're going to Boston, sure, this fall."

"Oh, mother!"—Ethel's hands came together in ecstasy, while Fred whooped in glee.

"There, Caleb, I told you how it would be," smiled Mrs. Dalton as the door banged behind Fred; then, anxiously, "You wouldn't want to spoil it all now, would you?"

"No; but no, of course not," murmured Caleb.

This was in August. By the middle of September each household goods as the Daltons had planned to take with them were packed, burled, crated and labeled. It had been Mrs. Dalton's idea to sell the rest of the furniture on the farm at auction, but

December, January, February and March passed, and the first of April brought a letter from the lessee of the farm asking if he was to have the place through the summer.

"Of course he can have it," declared Sarah. "Just as if we wanted it again!"

"Yes, yes, of course," murmured Caleb. "I—I'll write later on."

It was an early, and a wonderfully beautiful spring that year.

Sarah grew restless indoors. Downstairs, on each side of the big front door was a square-yard patch of puny, straggling grass; and it was these two bits of possibilities that put a happy thought into Sarah's head.

She bought a trowel and some flower seeds and set resolutely to work. She dug the trowel into the earth four times, and was delightedly sniffing the odor from the moist earth when the janitor appeared.

"Did ye lose something, ma'am?" he asked suspiciously.

"Lose something?" laughed the woman. "Of course not! I've found something, William. I've found a flower bed. I'm going to have the prettiest one ever was."

"I won't do, ma'am, 't won't, really, now. I'm sorry, but the boss won't stand it."

It was that night that Caleb brought out the paper and pen to write the letter which would lease the farm for another six months. Twice he dipped his pen in the ink, and paused with no word written. Finally he spoke.

"I'm going to give him some hints, Sarah. He won't know how to run some of the things, I'm sure. If he should plant the meadow lot to potatoes, now, it—"

"And, Caleb," cut in Sarah, "be sure and send word to my wife about the roses; if she don't spray 'em real early, the bugs and worms will get an awful start."

There was another long silence, broken this time by the children's entrance.

"Mother," began Fred discontentedly, "don't they ever go fishing down here, or swimming, or anything?"

Sarah sprang to her feet with a nervous little laugh.

"Caleb, we—we might go up home just for a visit," she said.

"Hurrah!—let's!" cried Fred, and Ethel clapped her hands.

"It was a jubilation that left the North station a few days later, and it was a still more jubilation that arrived in the village at the foot of the green hills.

"Oh, don't it look splendid and roomy!" cried Sarah, as they reached the turn where they could see the farm-house. "And don't the air smell good!"

Just at dusk on the third day Caleb found his wife in the old summer-house. Wrapped in shadows, she was fastening vines to the trellis.

"Well, Sarah, I—I s'pose I'd better settle up with West, now. I hadn't yet, you know."

Sarah nodded, without speaking. "Things look first-rate, now, but—I've got my doubts of West. I—I wish I could handle them myself."

Sarah threw a quick glance at his averted face.

"Well—why—don't you?" she almost whispered.

"Sarah, would you—would you come back? Do you mean it?" cried Caleb, with a swift joy in his eyes.

Sarah burst into tears, and threw herself into her husband's arms. "Oh, Caleb, I—just would! I—I've wanted to ever so long, but—I just wouldn't own up."

## HOW

SQUIRRELS ARE USED TO WORK FOR GOVERNMENT.

In conducting its extensive experiments to discover the best way to reforest waste lands or burnt-over forest lands the forest service has need of large quantities of forest-tree seeds, especially of the cone-bearing varieties. Since these trees do not bear evenly every year, it is necessary for economic reasons to ascertain in advance what species will furnish good seed crops each year, as well as to undertake the gathering operations in regions where the cones are likely to be most abundant. For these reasons information is collected as to the bearing and conditions of the trees in different parts of the national forests, sometimes as much as two or three years in advance. This is possible because many of the species of pines take from two to three years to ripen their cones.

When lumbering is proceeding at the time of seed-ripening it is a comparatively simple matter to gather the cones from the felled trees. But when the trees are to remain standing it is sometimes a rather difficult task to get the cones without climbing the trees. A great deal can be accomplished with hooks or knives attached to long poles, but the forest rangers have learned to make use of nature's own seed-collectors for their purposes. Plenty of cones are found in the seed stores of the squirrels. This seems to be a very economical way for Uncle Sam to obtain his forest seeds.

Not only is this method convenient, but it has the further advantage of furnishing the best seeds. The squirrels apparently place cones in their hoards only high-grade cones. Moreover, the squirrels put their supplies away so early that it is possible for the foresters to come back to the squirrels' reserves after the cones still on the trees have opened up and scattered their seeds. The red squirrel is the best collector; in many of the holes of this species it is possible to find from eight to ten bushels of cones of good quality. The average quantity found in a single cache is about two bushels. Other animals also store away seeds and cones, especially chipmunks and wild mice.

December, January, February and March passed, and the first of April brought a letter from the lessee of the farm asking if he was to have the place through the summer.

"Of course he can have it," declared Sarah. "Just as if we wanted it again!"

"Yes, yes, of course," murmured Caleb. "I—I'll write later on."

It was an early, and a wonderfully beautiful spring that year.

Sarah grew restless indoors. Downstairs, on each side of the big front door was a square-yard patch of puny, straggling grass; and it was these two bits of possibilities that put a happy thought into Sarah's head.

She bought a trowel and some flower seeds and set resolutely to work. She dug the trowel into the earth four times, and was delightedly sniffing the odor from the moist earth when the janitor appeared.

"Did ye lose something, ma'am?" he asked suspiciously.

"Lose something?" laughed the woman. "Of course not! I've found something, William. I've found a flower bed. I'm going to have the prettiest one ever was."

"I won't do, ma'am, 't won't, really, now. I'm sorry, but the boss won't stand it."

It was that night that Caleb brought out the paper and pen to write the letter which would lease the farm for another six months. Twice he dipped his pen in the ink, and paused with no word written. Finally he spoke.

"I'm going to give him some hints, Sarah. He won't know how to run some of the things, I'm sure. If he should plant the meadow lot to potatoes, now, it—"

"And, Caleb," cut in Sarah, "be sure and send word to my wife about the roses; if she don't spray 'em real early, the bugs and worms will get an awful start."

There was another long silence, broken this time by the children's entrance.

"Mother," began Fred discontentedly, "don't they ever go fishing down here, or swimming, or anything?"

Sarah sprang to her feet with a nervous little laugh.

"Caleb, we—we might go up home just for a visit," she said.

"Hurrah!—let's!" cried Fred, and Ethel clapped her hands.

"It was a jubilation that left the North station a few days later, and it was a still more jubilation that arrived in the village at the foot of the green hills.

"Oh, don't it look splendid and roomy!" cried Sarah, as they reached the turn where they could see the farm-house. "And don't the air smell good!"

Just at dusk on the third day Caleb found his wife in the old summer-house. Wrapped in shadows, she was fastening vines to the trellis.

"Well, Sarah, I—I s'pose I'd better settle up with West, now. I hadn't yet, you know."

Sarah nodded, without speaking. "Things look first-rate, now, but—I've got my doubts of West. I—I wish I could handle them myself."

Sarah threw a quick glance at his averted face.

"Well—why—don't you?" she almost whispered.

"Sarah, would you—would you come back? Do you mean it?" cried Caleb, with a swift joy in his eyes.

Sarah burst into tears, and threw herself into her husband's arms. "Oh, Caleb, I—just would! I—I've wanted to ever so long, but—I just wouldn't own up."

## THE CARELESS SMOKER

A fool there was and his pipe he lit (Even as you and I)  
On a forest trail where the leaves were lit  
To become ablaze from the smallest bit  
Of spark—and the fool he furnished it.  
The day was windy and dry.

The forest was burned to its very roots,  
Even beneath the ground,  
With the flowers, the birds and the poor  
dumb brutes.  
Old heavy oak and the tender shoots  
Which might have made logs, but for  
such galeots  
Allowed to wander around.

The lumberjack has now passed on,  
His pay day comes no more,  
And the screech owls haunt the camp at  
dawn.  
Where the cook's tin pan woke the men  
of brown;  
But the mill is silent, the trees are gone,  
The soil and the forest floor.

A deadly sight are those hills of rocks  
Which once were beds of green;  
No hope for the human, no food for the  
beasts;  
The floods must be held by expensive  
locks.  
And the harbor is silted to the docks,  
The ships no more are seen.

But the fool smokes on in the forest still,  
Leaving fires burning, too,  
While the patient public pays the bill,  
And the nation's wealth is destroyed for  
nill.

If the law doesn't get him, old Satan will  
When his smoking days are through.  
—HARRIS A. ROYALD in the Milwaukee  
Journal.

## CLOSED SEASON FOR MALES

Magazine Writer Throws Out a Suggestion That Is Worthier of More or Less Thought.

Consideration of verdicts in murder trials where women are involved the country over indicates something amiss with the present system. It needs codifying and simplifying. Starting from the basic proposition, exemplified in scores of instances from Maine to California and once more reaffirmed in the Stone trial, that no woman of reasonable attractions and with money enough to hire a top-notch lawyer need fear conviction for killing a man by whatever method she finds most convenient, it follows that the subsequent procedure should be freed of cumbersome and expensive details, observes a writer in Leslie's.

A sliding scale of fines might well be worked out, ranging from, say \$10 in the case of baby blondes under twenty-five, to as high as \$10,000 for severe brunettes up to the age of fifty. Above that limit murderers should perhaps be imprisoned, although it is unsafe to generalize in these days of cosmetic rejuvenation when anybody's grandmother in full war paint might look like the far end of the chorus.

On the other hand there are the men to be considered. Other game is protected in certain seasons and unless man is to be regarded as prey (which seems to be the accepted view of the typical, woman-obsessed juror) he ought to have a chance for his life. Nobody really wants him to become wholly extinct. How would it do to declare a closed season on males the first three weeks of every month, and let them take to the woods for the odd week? The suggestion is respectfully submitted to congress as a possible relief to its bonus, tariff and international troubles.

## Dog One of Chief Mourners

A pathetic dog story comes from Jacksonville, Fla. A large collie was one of the mourners of its master, an eleven-year-old lad who was suffocated when a tunnel the boy and his playmates had dug caved in. The collie was at the mortuary when it was opened and during the funeral service in the chapel took a place under the casket, where his howls interrupted the proceedings. When the casket was placed in the hearse to be taken to the train the dog climbed in, and all efforts to remove him were unavailable until the body was put on the train.

## "Lost the Account"

The Council of North Sydney, Australia, has had dealings with a man with strange ideas of bookkeeping. Some years ago he did some work for the Council, but didn't claim payment for part of it, because, he said, he had "lost the account." The other day the bill was sent in for the balance and was duly paid. The "account" had been kept on a bit of tin; which had got mislaid.

## Hen Eats Her Chickens

A British Columbia woman says that one of her hens ate one of its chicks last month. She thought that there must have been something the matter with the chick, but she discovered her mistake when the hen commenced eating another chick which was healthy in every respect.

## Followed Father's Example

The brides and bridegrooms at a double wedding at Spaulding, Eng., were two brothers and two sisters. The brides followed the example of their father, and he and his brother married two sisters.

## NEW ENGLAND NEWS IN TABLOID FORM

News of General Interest From the Six States

Her head on a Bible, Mrs. Elek Gunther, 25, was found dead from gas poisoning, lying fully dressed on the kitchenette floor of her home in Haverhill.

A raccoon, pet of John Salvi, a former sailor of Chelsea, Mass., broke loose and caused five casualties in the henyard of Thomas Whitford. The owner of the hens swung a hoe once and the raccoon fell dead.

Fire of unknown origin destroyed the old chemistry building, a four-story wooden structure, at Massachusetts Agricultural College, Amherst, including all the equipment. The loss will amount to many thousands of dollars. Members of the chemistry faculty of the college succeeded in saving the valuable library.

A cyclonic storm that arose with great suddenness and swept through Stamford, Conn., with devastating force, did hundreds of thousands of damage, plunging the city in darkness, paralyzing traffic on the surface roads and on the New Haven road and causing heavy property loss.

Dangerously ill, and attended by an aged negro who accompanied her to Plymouth, Mass., from Washington, Mrs. Mary S. Lockwood, writer one of the founders of the Travel Club, and prominent in woman's suffrage work, was taken to the Jordan Hospital. Mrs. Lockwood is 91 years old.

The Massachusetts Grand Lodge of Odd Fellows in convention in Worcester, voted to purchase as a state headquarters for the order a three-story brick building with 2500 square feet of land at 170 Newbury street, Boston. It will also be used as a headquarters for the Massachusetts grand encampment.

Amalgamation of the six state undertakers' associations in New England into one body was advocated at the opening of the annual convention of the Massachusetts Undertakers' Association in Springfield, Mass., by President George W. Stroeter. The 500 undertakers attending the convention applauded the suggestion.

The annual convention of the New England tuberculosis conference will be held in Augusta, Me., Sept. 23, 29 and 30, according to an announcement by Walter D. Thurber, executive secretary of the Maine Public Health Association. The session will be held at the State House and headquarters will be at the Augusta House.

Dependent as a result of illness and unemployment, and heart-broken because she did not have money enough to have her kitten sent to her from her home in Lovington, Me., Alice Walker, 18, drank half a glass of crescents in her room in the lodging house at 7 Market street, Lynn. Doctors at the Lynn Hospital said she probably would recover.

Armed with sticks and stones, 40 laborers employed by the Turfmen Falls Power and Electric Company, several of them natives of Southern States, threatened to kill William Paul, a 19-year-old negro of Haverhill, Mass., who is alleged to have called their foreman foul names. The negro was saved from serious injury by the timely intervention of the State constabulary stationed at Lee.

J. Meredith Towne, member of an immensely wealthy family of Connecticut and New York, is nursing the remnants of a shattered romance. After three years of married life he has asked the divorce courts of Connecticut to free him from the pretty little Jewess, who was Miss Sarah Haven, whom he married on March 12, 1919, in Ohio, when both were still in their teens.

While fishing near the red buoy between Nashawena and Pasque Islands, New Bedford, Robert Tilgh and a party of summer residents on Cuttyhunk Island speared a 40-foot fin-back whale. A harpoon was thrown into the creature, which dashed toward Galhead towing Tilgh's small powerboat. After traversing several miles the harpoon worked out and the whale was lost.

The Longsight Company, Providence, announces that it will refuse further to supply striking operatives who are behind in their bills with milk. Many of the strikers have not paid milk bills since the strike began last January. These strikers who have settled with the company for milk received will continue to get their usual supply. It was announced according to officials of the company, approximately \$2900 is now outstanding in unpaid milk bills among the strikers.

William C. Adams, member of the Massachusetts Fish and Game Commission is the new president of the International Association of Fish, Game and Conservation Commissioners. He was elected at the 14th annual convention of that organization in session in Madison, Wis. The election was unanimous. For many years Adams has been one of the leading spirits of the international association and for two years has served as vice-president. Director of the division of fisheries and game of the Massachusetts body, he was first appointed commissioner in 1912 to succeed George H. Gardfield of Brookline.

## BOSTON MARKET REVIEW

For Week Ending Sept. 8, 1922.

Prepared by U. S. Bureau of Markets and Crop Estimates

### DAIRY AND POULTRY PRODUCTS.

Butter market has ruled firm the past week and prices are advancing on all grades. The shortage of finer butter and good demand coupled with higher prices at other markets caused an advance of a full cent on top scores. Although medium and lower grades are not so firmly held, selling prices have advanced about 5c on these grades. Western Extras 35c, Northern Extras assorted sizes spruce 35 1/2-40c. Cheese market has been following more actively the past week and there have been fractional advances on all styles. Buyers have been more interested in cheese this week than for some time past, with trading centered around York State Twins mostly at 22-25c. Young Americans and Single Daisies are moving slowly around 21-22c. Eggs remain very firm with considerable trading mostly on finer quality goods. Production evidently dropping off as receipts of eggs on the market are decreasing. The scarcity of fresh eggs has caused a marked advance in prices and many large users have turned to storage eggs which are being removed from storage at the rate of about 3000 cases a day. Ordinary receipts selling 25-25c. Finer quality and graded 25-35c extra quality up to 35c. Nearby hatcheries selling mostly in jobbing lots 35-50c. Fancy browns up to 55c. Bred poultry very firm with very few sales. Live poultry demand good for fine lots with receipts moderate. Fowls 25-28c. Broilers mostly in the chicken class 25-26c. White leghorns 25-26c.

### FRUITS AND VEGETABLES.

Apples, pears and peaches were plentiful and cheap. Most vegetables sold at low prices, particularly cantaloupes, sweet potatoes and tomatoes. Native apples were steady at \$1.50-2.00 for best McIntosh, and \$1.25-1.75 for Gravenstein. Native bunches higher at 40-55c and cut buds at \$1.25-1.50 a bu. box. Maine and New York State blueberries arrived mostly in wet condition and sold 15-25c a qt. Colorado cantaloupes much lower at \$2.00-2.50 a standard crate. Native cabbage advanced the first of the week but quickly receded to \$1.00-1.25 a barrel. Green and wax beans lower at \$1.00-1.50 a bu. box. Bunched carrots steady at 50-75c and cut carrots higher at \$1.25-1.50 a bu. box. Native celery lower at \$5.00-1.75 a box. Cape Cod cranberries lower at \$4.00-4.25 per 1/2 barrel crate. Native corn higher at \$1.00-1.25 for white and \$1.25-1.50 a bu. for yellow. Export corn at \$1.50-1.50 a box. New York State, Delaware grapes steady at \$1.00-1.75 a carrier, most other grapes showing effects of rainy weather. New York State lettuce higher at \$2.00-2.25 a crate, and native lettuce at 40-55c a bu. box. Ohio and Indiana onions lower at \$2.00-2.25 per 100 lb. sack. Massachusetts onions \$2.00 a sack. N. Y. State 24-bertha peaches slightly lower at \$2.00-2.25 a bu. basket. Maine potatoes lower at \$1.25-1.25 per 100 lb. sack. Virginia sweet potatoes lower at \$2.75-3.00 a barrel. Native tomatoes steady at 75c-1.50 with a few fancy Stone tomatoes at \$2.00-2.50 a box.

J. Harvey Jordan, long a well-known lumber man on the Penobscot River water, died suddenly at Oldtown, Me., aged 79 years.

Nearly 150 delegates from 22 states opened the 53d annual session of the national convention of insurance commissioners at the New Ocean House in Swampscott, Mass., Thomas B. Donaldson, commissioner of insurance for Pennsylvania and president of the organization, delivered the opening address advocating closer organization of insurance men throughout the country and more strict supervision of new companies.

The wage a job pays rather than the job itself interests the modern candidate for office by positions and apprenticeships, the Massachusetts public employment bureau intimates in a report on conditions of the labor market in August the department of labor and industries, said there were a large number of boys visiting the daily office "who are indifferent as to whether they work or not."

Six hundred Boston University students earned more than a quarter of a million dollars in thirty-six weeks in positions secured for them by the Vocational Department of the College of Business Administration. These undergraduates, who are working their way through college, drew wages and salaries totaling \$287,502. The jobs they took included everything from waiting on tables to playing in orchestras and clerking in business houses.

There are 3,538 abandoned farms in Maine, according to a survey completed by the state board of assessors. This is a much smaller number than has generally been supposed. These farms range in value from \$750 to \$1,000 each. In making this tabulation the assessors included only farms which were actually abandoned; that is, those upon which no branch of agriculture was practiced. This, therefore, eliminated those places, the owners of which had left them to live in villages so as to get better school facilities for their children, but continued to cultivate the land. Most of the previous enumerations have classed as abandoned all farms upon which no one lived; which, obviously, was an unfair method.

The cost of collecting taxes by the State of Massachusetts for the last fiscal year was a trifle over 10 cents for every \$100 taken in, as compared with a cost of \$1.30 per \$100 which the Federal Government paid out for the collection of taxes due to the Nation, as announced from Washington. In giving out these figures Commissioner Henry F. Long of the Department of Corporations and Taxation said that the cost of collecting the \$54,900,000 of State taxes was \$78,000, the principal expense being in the matter of compensation, printing supplies and travel.

"Oh Come, Now, That Ain't Going to Do, You Know."

Just here she encountered an unexpected but stubborn resistance from her husband. Consequently, the remainder of the goods were stored in the attic, and the farm was pointed out as the first of May.

"Cousin John" in Boston had received the news of their intended coming with cordial interest, and had already procured for them a six-room apartment in Roxbury; and it was in his thriving market and grocery store on Warren avenue that Caleb was to have a position as clerk.

Some weeks later when Mrs. Dalton saw her new home, she didn't know whether to laugh or to cry.

"Why, Caleb, I—I can't breathe—the rooms are so small!" she gasped. Nothing settled was a wonderful experience.

At last the tiny "parlor" with its cluttered mantle and showy gas fixtures—the pride of Sarah's heart—was in order; and, after that, Sarah made sure each day that three o'clock found her dressed in her best and sitting in solemn state in that same parlor waiting for the calls that were rarely now long overdue.

Dogs passed, and her patience was rewarded save for a sharp ring from a sewing-machine agent, and another from a book canvasser.

Sarah could not understand it. Surely, her neighbors in the block must know of her arrival even if those in her immediate vicinity on the street did not. Meeting a tall, slender woman, when she had already seen three others, she spoke.

"How—how d'ye do?" she began timidly.

The tall woman started, threw a hurried glance around her, then came to the conclusion that the salutation was meant for herself.

"Good-morning," she returned, then hurried along through the hall. Sarah stood looking after her with dazed eyes.

**This Fits Most of Us.**  
Henry Ward Beecher, so the story goes, was once asked by a young preacher how he could make his congregation keep wide awake and attentive during his sermons. Beecher replied that he always had a man watch for sleepers, with instructions, as soon as he saw anyone start nodding or drifting to listen to the pulpit and wake up the preacher. Aren't you and I usually less scrupulous? Would we not be inclined to have the watcher wake up, not ourselves, but the fellow-sleepers? In other words, were we disposed always to blame others? When things go wrong in an organization the president usually finds it is necessary for him to shake up his associates. His associates, in turn, usually start kicking up reactions with those under them. And workers, when they are dissatisfied, usually lay the blame, not at their own door but at the door of the foreman or the department head or the big boss—somebody, anybody, except ourselves.

How about adding this Beecher truth to what we already carry around with us in our minds?—Felix Mag-

## SKILLINGTON

Edith Wheeler of Norway visited her father, Charles Wheeler recently. Mrs. Jennie Smith of Canada is visiting her cousins, Ella and A. B. Sanborn.

Mrs. A. B. Sanborn and Mrs. W. H. Griffin were in Norway, shopping, and called on Mrs. Leslie Whitman, Wednesday.

Frank Chapman of North Bethel spent the day Sunday with his mother. Mr. and Mrs. C. C. Eames were in this place, Sunday.

Mr. and Mrs. Percy Flanders and two children, and Mr. and Mrs. Frank Heath and two children were guests of friends in Errol, N. H., Sunday.

Gold Knives Used to Carve Sacrifices. At Chichen-Itza, in Yucatan, where there is a sacred fishing well, there has been found all sorts of beautiful sacrifices imbedded in the mud. Jade necklaces, gold plates and small jars heavily studded with jade, sometimes containing human hearts, have been found in this well. The Maya Indians made these sacrifices when they wanted rain or a blessing for their crops. Beautiful gold knives that were undoubtedly used to carve up the victims of sacrifice, usually young women, have also been found.

The Maya Indians of northern Yucatan probably use the same language as the builders of the ruins among which they live, says Prof. A. M. Toser, of Harvard University.

**Fashions in Flowers.**  
Flowers have not always meant beauty alone. In the days of the French revolution to wear or even possess the proscribed fleur-de-lis meant death. Likewise, after Waterloo and the fall from power of the Napoleonic regime, the violet, which had been chosen as the emblem of the Napoleons, was forced to disappear from public view. Yet later, as times changed, history found the Empress Eugenie wearing the violet on her breast at a ball in the Tuilleries to signify to the world that she had accepted the hand of Napoleon III.

Now have the same flowers always found favor in the eyes of the world. Some flowers have their fashions, too, as, for example, the camellia and the once despised sunflower and marigold. It was through Damascus that the waxen beauty of the camellia came into general favor, and the pre-lapsarian reds and yellows of the sunflower and the marigold, the mythical goldflower of the Greeks.—Exchange.

7.00: Christian Endeavor meeting.  
On Thursday evening, Sept. 21, Rev. M. D. Kneeland, D. D., will speak to the people of Bethel on "Good Citizenship," with special regard to the present problem of the Sabbath. All citizens should hold this date open and hear Dr. Kneeland. The place of meeting will be announced later.

### METHODIST CHURCH

Rev. C. B. Oliver, Pastor  
Sunday morning worship at 10.45. Special music. Subject, "Discordant Notes."  
Church School at 12.  
Evening worship will be at the West Bethel church. No service here. Rev. Mr. Thomas of West Bethel will preach his sermon, "Bethel." All are invited.  
Tuesday evening worship at 7.15. The Ladies' Aid will meet at the church early Friday afternoon.  
The Woman's Foreign Missionary Society will meet with Mrs. Bertha Wheeler, Thursday evening, Sept. 14, for election of officers.

### WEST BETHEL CHURCH

W. D. Thomas, Minister  
Sunday, Sept. 17, will be the last Sunday for the summer sessions in the West Bethel Union church. It also ought to be our last. The morning top will be "The Next Minister." The present minister has some very valuable information concerning his audience which the people should know. It will be of help to the people and to the next minister.  
Sunday evening a sermon will be preached about "Bethel." This is to be an appreciation of Bethel as it was, and may be. Do you love Bethel? Or do you just take Bethel as a matter of course? Bethel has a claim that cannot be brushed away. Let the friends of Bethel come and they will love her more. Let the neutrals come and we will make of them friends. Let the enemies come and we will convert them. Above all things do not let an outsider show a greater interest than a citizen.  
Morning worship at 10.30. Theme, "The Next Minister."  
Sunday School at 11.30.  
Evening devotion at 7.30. Theme, "Bethel."

### MARSHALL DISTRICT

Mr. and Mrs. Charles Swan and son, Harry, of Locke's Mills were callers at Calvin Cummings', Sunday.

Mr. and Mrs. Arthur Flint and son, Horace, of Bridgton, Miss Stevens of Massachusetts and Mr. Whalen of Rhode Island spent the day, Thursday, at George Briggs'.

Mrs. Roxane Swan and nephew, Harry Swan, of Auburn were recent callers at George Briggs'.

Mr. George Briggs and two daughters, Nina and Irene, called on friends and relatives in Norway and So. Paris, Sunday.

Mrs. Roxane Swan and son, Bernard, also Mrs. Estes of Bethel called at George Briggs', Monday.

### Marjorie Looks Wicked.

The dragonfly to which we often give the name of "devil's darning needle" or "horse stinger" is a much maligned creature. Because of the pincer-like feel to its long wicked-looking body, many persons fear its sting. Dragonflies, however, cannot sting; they have no stingers. In place of such weapon, the insect's head is provided with strong jaws with which it catches butterflies and tears them to pieces.

### BETH

Sermon Preached by Minister of West. Be.

Gen. 28:17. "This is the house of God; and of Heaven."

I do not think I am shocking anyone if I say that this little sect of people, although it is in all parts of the world, yet acquired fame. great many people will of Bethel, Maine. months ago, I was also. Then I was informed such a village in Maine people there wanted with them for the service and was accepted, but I had not I should find. There the walls of my mind come down out of times. I saw a wear at the hour of sunset rocky ledges near the Lux. The light from them streamed down over them with gold. They came out the lad took it for his pillow. As he the gilded ledges became a dream. They changed stretched from earth to angels of God ascended upon it, and with the vision of the Lord. came to himself in the prison was great, and God is in this place; and. . . . This is none other of God, and this is the place. Then the young pledge to be as firm as know how, and he called the place, "Bethel."

On my way here I city of Boston. There meeting me on the street where I would be, during When I mentioned the he looked past me as many miles of mountain little village, and he said know the place, but you people there." So I can verify his prophecy.

Soon after I came here wonder about the history known as Bethel. was certain, the name chosen without much of the part of good men, and I asked if the citizens worthy of the forum a beginning here, and by which the section is reading as much as I am coming the past of Bethel talking with people many long years here, I feel that the man who streets and the old roads out wanting to lift his spect and love for the before him—that man here no matter how long his residence with us.

The history of Bethel interesting details which by be retained in the minds of the people, and the reads of them, and the one thing is certain to have been impressed with the fact has cost much in hardship, and it took real men to begin it. It was back to the authorities with the name of Nathaniel S. terminated to make his home. From some point looked down, and was a

For far and wide on earth there stretched a valley of greenness flashing of a pleasant, smiling, home.

It was that Nathaniel S. followers who came soon to make the homelike land homelike.

It is interesting and I take notice of the type of cases here. Among those there, there was scarcely another than a good hardy showing that the parents were respect for the parents, and also the strangers to the Book of Acts. The mere mention of a strength that will never be associated of children of our in 1798 the people of Bethel decided that they would give a name of their own. It was only one source from which to get their name.
